MAYSVILLE, KY., TUESDAY, JANUARY 25, 1898.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "bait" free any more than a merchant can give his counter five gifts of goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We'll Break the Rule!

January, as a rule, is a dull month for clothing people. We believe much of the dullness is the fault of the merchants. They labor under the impression that nearly everyone has laid in their winter supplies and fear to expend money for printer's ink. We will break the rule and see what virtue there is in printer's ink and the offer of good clothing at about 50 cents on the dollar. Now, the first thing you want to do is to read this ad. carefully; the next is to come and see the goods advertised. What will follow will be a rule-breaker.

On Thursday morning, January 18th, and until the end of the month, all our fine Beaver Overcoats—garments that sold for \$10, \$12 and \$15—will go at \$6.75.

Our finest Beaver, Kersey and Cover Overcoats that sold at \$18, \$20 and \$25 will go at \$15.

Our Cheviot and Cassimere Suits that sold at \$10, \$12 and \$13.50 will go at \$8.75.

Our finest Cheviot, Worsted and Cassimere Suits that sold at \$15, \$18 and \$20 will go at \$12.

We need not comment on qualities. Everybody knows what class of clothing we sell.

\$4.90! \$4.90!

This represents the selling price of 260 all-wool Cassimere and Cheviot Suits that we recently closed out. Not a Suit in the lot that isn't worth \$9. They come in four styles and all sizes. We believe them the greatest bargains we have ever able to offer you. Thursday morning the entire lot will be in our show-window. Look for the \$4.90 Suit. It's a hummer.

For extra bargains in fine shoes come to us. We want to close out our heavy shoes to make room for our spring stock.

Spot Cash will be the watchword during this sale.

A big beech tree recently felled on a North Auburn (Me.) lot yielded two and one-half cords of wood, measured 29 inches at the base and showed 100 rings, the rings denoting its annual growth.

At the recent Scandinavian exhibition was a ribbon of Swedish steel eight inches wide, cold rolled, 2,354 feet long and weighing 1,146 pounds, twined as a silken band would be round about the pavilion.

The funeral of Squire John L. Grant will take place from his late residence, 236 Limestone street, tomorrow morning at 10 o'clock, with services by Rev. J. S. Sims of the M. E. Church, South, assisted by Rev. D. D. Chapin of the Church of the Nativity. Interment in the Maysville Cemetery.

Little Irene Evans of Forest avenue, aged 6 years, the only child of Mr. and Mrs. James Evans, was taken down Sunday one week ago with sore throat. Her illness grew alarmingly, until that horrible and malignant disease, black tongue diphtheria, had developed, carrying her off Sunday, being sick just one week. The funeral took place yesterday morning, with brief services at the grave.

The Ashland News says the indications are that the Hotel Aldine, which has been closed for several years, will be opened again in a few weeks.

Mrs. John Whitney, formerly Miss Anna Fleming, a native of this county, died at her home at Portsmouth last week in the eighty-fourth year of her age.

It is said that the case of Ed Stevens, who was sentenced at Newport to ten years for assault on Mrs. Gleason, will be appealed. In regard to the other members of the gang yet untried, their cases will come up the latter part of next month, and there is strong probability that the indictments against them will be nolleed, the evidence not being considered sufficiently strong to convict.

The Murray Comedy Company opened a week's engagement at the Opera-house last night to a crowded house. The parts taken by the leading players, Vivian Pate and Harry Stanley, manifested the varied talents of these people on the stage. In every detail the show was first-class and proved itself worthy of large houses this week. The Merry Clobber is the title of the play for tonight.

Ex-Constable Frank Purnell on Monday found the remainder of Mrs. Hattie Mitchell's jewelry that had been stolen. It was hidden under the floor of the buggy-shed at the Mitchell residence near Mayfield. Miss Lida Rogers, a graduate of the Department of Education in the College of Music, Cincinnati, has taken charge of the Department of Education and Oratory at Haywood Seminary, and will open her class there February 1st. The Columbia Trust Company, Assignee for the Kentucky Trust Company, has completed its statement of the assets and liabilities of the defunct institution. On the face of the statement the nominal assets are \$149,295.89, with liabilities, \$152,219. However, the greatest part of the assets are worthless, and those that are good are pledged for debts. It is thought that the company will not pay one cent on the dollar and there is nothing at all for the depositors. William Riecke the missing Manager looted it completely.

ASSIGNED YESTERDAY.

Mr. George Wood Makes a Deed of Trust For Benefit of Creditors.

Mr. George Wood, one of the best known farmers of the Washington neighborhood, yesterday filed a deed of assignment to Messrs. A. M. J. and William D. Cochran.

No schedule of liabilities is given, but the land is encumbered by a bonded debt of \$22,500, with a mortgage debt of \$3,000, making \$25,500 in all.

It is thought the property will more than pay the debts.

MR. JOHN WHEELER.

Death of This Life-Long Resident of Mayville at His Home Last Evening.

Mr. John Wheeler died at his home at 22 East Fourth street last evening at 7 o'clock after an illness of nine weeks of a complication of diseases.

The arrangements for the funeral had not been completed when this Lebanon went to press.

FLOTSAM—JETSAM—LIQAN!

NEWS NOTES FROM NATURE'S GREAT HIGHWAY.

The Lizzie Bay passed up last night for Pomeroy.

The Bonanza will attend to the Pomeroy business tonight.

The Virginia passed down last night from Pittsburgh and will return tonight for that port.

The new Pittsburgh and Cincinnati packet Queen City broke another record Saturday. She passed up with the heaviest freight trip ever taken out for Pittsburgh. The principal item of her freight was sugar and molasses, though she had a large amount of miscellaneous freight.

She started away from Cincinnati with over 600 tons of freight aboard and was drawing scant 5 feet of water. This is considered wonderful. She has over 1,200 barrels of molasses in her cargo.

Notwithstanding the weather man's tale that the Ohio would not reach a 40 foot stage above Cincinnati, it has gone beyond that and is still rising at the rate of an inch an hour, at 9 o'clock the gauge showing 44 feet at this point—a big river.

The Ohio river at Davis Island reached 17 feet yesterday. The Allegheny is on a rampage, and the Pittsburgh and Western Railway trucks and passenger station in Allegheny City are flooded with a stage of about 20 feet. Some damage to coal interests on the Allegheny wharves is reported. At 11 o'clock yesterday morning the Monongahela registered 19 feet 7 inches at Pittsburgh and rising. The Monongahela is rising all the way to Fairmount, where the rise was 8 feet in a few hours. With this "encouraging" news people along the banks of Ohio have begun to move up higher, as it does seem as though a good floodtide will be reached the latter part of the week. It is raining all along the stream again today, with fair prospects of another ten hour down-pour.

"The best way to get rid of a bad law is to enforce it."—General Grant.

CLARENCE SKENKING has confessed to breaking into the Postoffice at Owensville. He will soon be able to announce that he has broken into the Penitentiary as well.

NOW THAT "Honest Dick" TATE has been legally declared legally dead, what's to hinder him from coming home? Surely you can't legally try a man who is dead.

SILAS MARTIN of Richmond has been for the past six months secretly at work on a machine that he claims will practically solve the question of perpetual motion. It is not stated whether SILAS is a Populist orator or just a plain barber.

The political shysters won a doubtful victory over the Governor a year ago, but every day it is growing more and more apparent that BRADLEY is by long odds the leading Republican of Kentucky. His name will shine when that of his opponents stink.

The Stanford Journal notes that the Legislature seems to be generally in accord with Governor BRADLEY. Most of the suggestions in his message have been presented in bills which will become laws. It is rather singular that a body composed for the most part of Democrats should give him such support, but they recognize that his recommendations were non-partisan and for the public good.

The discussion in the Senate on the Immigration Bill shows very clearly where the Republican party stands in the matter of intelligence and law and order. The leading men of the party have spoken out clearly and vigorously in favor of a law which shall exclude from the United States the ignorant, the depraved, and the unsatisfactory classes which have during the past few years made up such a large proportion of the immigration. The Republican party, it will be remembered, passed a measure of this kind during the closing months of President CLEVELAND's term, and it was vetoed by him. Now that there is a Republican President in the White House, a Republican majority in the House of Representatives, and a larger number of Republicans than of any other party in the Senate, there is reason to believe that the measure will become a law, and that the world will be given to understand that the party in control of affairs in the United States does not desire to recruit the citizenship of this Nation with ignorant and degraded men, and is not willing to permit this class to come into competition with intelligent American citizens or to assist in controlling National affairs.

JOHN I. WINTER, THE PRICE FIGHTER IN IMPLEMENTS AND FURNITURE.

MAYSVILLE, KY.

The American Economist says there is something really odd and impressive in the silence observed in the Free-trade press concerning the excellent showing of the Tingley Tariff for the month of December, 1897. The things which are not said on this subject are quite noticeable.

A PHILADELPHIA dispatch announces the marriage in that city of a great-granddaughter of President BUCHANAN. We've heard Mr. BUCHANAN accused of about everything else, but this is the first time he has been charged with having a great-granddaughter, as he died an old bachelor.

The Republicans of Indiana began the work of reorganizing the party for the state campaign by electing in every county a new County Committee. The Republicans of Kentucky might with profit follow suit; and it is hoped that in the formation of new County Committees the Constitution of the party organization will be observed.

Use Sweet Blossom Corn.

Mr. Elisha Berry of this place says he never had anything do him so much good and give such quick relief from rheumatism as Chamberlain's Pain Balm. He was bothered greatly with shooting pains from hip to knee until he used this liniment, which affords prompt relief. B. F. Barker, druggist, St. Paris, Ohio. For sale by J. James Wood, Druggist.

Port Jefferson, one of the oldest settlements in West Kentucky, is in danger from the rising waters of the Mississippi River, on whose banks it has stood for nearly a century. During the past few years the river has made dangerous inroads on the little town, and now the caving banks threaten to carry the whole lower end of the village into the flood. The threatened area includes ground on which stand two dozen or more houses and a big factory.

Teeth extracted without pain. Dr. J. W. Cartmell, over Harry Taylor's, "Phone 60."

Through the Board of Trade the citizens of Columbus have offered \$500,000 and 500 acres of land for the location of the Government armory-plate plant.

The surface of the sea is estimated at 130,000,000 square miles, taking the whole surface of the globe at 107,000,000, and its greatest depth supposedly equals, four miles. The Pacific Ocean covers 78,000,000 square miles, the Atlantic 25,000,000, the Mediterranean 1,000,000.

THEY'RE WEALTHY.

Eight Members of the Legislature Are Worth at Least \$2,000,000.

There are some rich men in the present General Assembly.

The aggregate wealth of the following eight members is estimated at \$2,000,000: John T. Hinton of Bourbon, W. H. Cooke of Warren, Waller Sharp of Bath, C. J. Bronston of Fayette, J. M. Thomas of Bourbon, William Goebel of Kenton, C. Stepe of Louisville and H. G. Petre of Todd.

Mr. John T. Hinton is reputed to be the wealthiest member, while it is said that none of the eight falls under \$100,000 and the average is \$250,000.

Several of them are the most active opponents of corporations and trusts that can be found in the Legislature, or even in the state.

Eight or ten other members are reputed to be worth from \$35,000 to \$75,000, and possibly one or two of them would reach \$100,000.

When You Have a Bad Cold, you want the best medicine that can be obtained, and that is Chamberlain's Cough Remedy.

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectation easy.

You want a remedy that will protect against tendency toward pneumonia.

You want a remedy that is pleasant and safe to take. Chamberlain's Cough Remedy is the only medicine in use that meets all of these requirements. This remedy is famous for its cure of bad colds through-out the United States and in many foreign countries. It has many rivals, but for the speedy and permanent cure of bad colds stands without a peer, and its splendid qualities are everywhere admired and praised. For sale by J. Jas. Wood, Druggist.

One thing that attracts many people to Cincinnati to buy goods is the bargains that Cincinnati merchants advertise in the Cincinnati papers. Maybe Mayville merchants might keep some of this trade in Mayville if they would advertise bargains in the Mayville papers. Suppose you try THE LEDGER.

THE BATTLESHIP

Maine Ordered to the Port of Havana, Cuba.

It is Reported to Be at the Request of Consul General Lee.

To Establish a Coaling Station at Havana or Swamun Island, West Indies—No Truth in the Report That Gen. Lee Has Tendered His Resignation.

WASHINGTON, Jan. 25.—Senator Eklund Monday introduced a financial bill. It restricts the denomination of greenbacks and treasury notes to bills of \$5 and upwards; provides that national banks may issue currency up to the par value of bonds deposited; reduces the tax on circulation to one half of one per cent, and allows national banks to be established with \$25,000 capital and towns of 8,000 population.

Chairman Benton of the Senate committee on naval affairs, said that the Maine's going to Havana was an entirely natural movement. The sending of our ships to the ports of the

lyn yard and in 1816 feet long, 157 feet broad, 12 1/2 mean draught and 6,000 tons displacement. She has two ten-inch vertical turret and two military masts and her motive power is furnished by twin screw vertical triple expansion engines having a maximum power of 9,000, capable of making a speed of 17.45 knots.

She carries four ten-inch and six four-inch breech-loading guns in her main battery, and seven smaller caliber guns in her secondary armament, and eight one-pound rapid fire guns and four Gatlings in her secondary armament, and four Williams of torpedoes. Minister De Lome called again at the state department about 3 o'clock in the afternoon, information concerning the movements of the Maine. He asked and was freely permitted to see the orders sent to Adm. Sigsbee directing the Maine to proceed to Havana. The Maine has just joined the North Atlantic squadron and for this reason the order was given to proceed.

Adm. Sigsbee. The fact that the Spanish minister was shown the orders is not improbable. There is nothing of a threatening or bellicose nature in them. The navy department received information during the day that the Maine had sailed from Key West to the Tortugas, this being in accordance with the original programme when it was ordered south.

The president Monday sent the following communication to the governor of the State of New York, to the commissioner of patents George E. Roberts, of Iowa, to the director of the mint, H. C. McMillan, of Iowa, and to the attorney for the northern district of Iowa.

Mr. R. K. Preston, director of the mint, has resigned and the nomination of George E. Roberts, of Ft. Dodge, Ia., will be sent to the senate as his successor.

WASHINGTON, Jan. 25.—Following the view of President Dole, of Hawaii, it is not improbable that every who was president of Brazil will visit the United States some time between March 1 and November 1.

Senator Sherman Monday introduced a joint resolution empowering the secretary of the navy to send a commission to the West Indies for the purpose of investigating the practicability of establishing a coaling station at Havana or Swamun Island.

New York, Jan. 25.—The World's Washington correspondent says that the battleship Maine was ordered to Havana in response to a telegram from Consul General Lee. After six o'clock Monday night either dispatches from Lee were received at the state department, translated and sent to Judge Day, assistant secretary of state, who took them to the dinner given by Judge McKenna at the state department.

from the Maine, and the oath of office was administered to Mr. McKenna, who has been sitting as senator under appointment from the governor of Mississippi. Mr. Walthall presented a joint resolution adopted by the legislature of Mississippi urging the United States government to intervene in the Cuban war on behalf of the insurgents "peacefully if it can, forcibly if it must." The resolution was read and referred to the committee on foreign relations.

The United States steamship Maine was ordered to Havana. It is said that the navy department has received news from there but that the movement is not the line of a war, but a free intercourse of our naval vessels in Cuban waters the same as prevailed prior to their withdrawal on account of outbreak of hostilities.

The Maine, which has been selected to make the visit to Havana for the protection of American interests, is a battleship of the second class and is regarded as one of the best in the new navy. She was built at the ship-

CONFLAGRATION.

Great Eastern Block, Spokane, Wash., Destroyed.

The Loss of Life is Estimated all the Way From Ten to Fifty.

The Upper Part of the Building Was Used for Light Housekeeping by a Number of Families, Some of Whom Made Their Escape by Jumping.

SPokane, Wash., Jan. 25.—At midnight fire broke out in the Great Eastern block on Riverside avenue. The building is a six-story brick and the upper floors are used for light housekeeping. It is feared that 50 or more persons have perished in the awful flames.

The upper floors are occupied by 750 or 1,000 persons and it is not thought that more than 25 have been saved. The fire started in the upper part of the building, and the flames leaped from a window to the stone pavement and was taken to the hospital. The wife of the daughter and son-in-law were saved.

Great crowds in the streets are frantic with excitement. Several thrilling rescue were made. One man came down a rope with his wife on his arms and his wife followed.

The building is owned by Louis Levinsky, of San Francisco. It cost \$235,000, and is insured for \$30,000. The first floor and basement were occupied by John W. Graham, with a large stock of stationery. The flames are beyond the control of the firemen and will extend to adjoining buildings.

At 1:30 the fire was under control. Only the walls of the big building remain. Estimates of the loss of life vary from ten to fifty.

W. D. Lloyd was sitting in his room on the fifth floor reading when the alarm was given. "Everyone who was in bed at that time on that floor," he said, "perished."

He had a narrow escape. Wrapping his overcoat around his head he came down the stairway. As he ran down the stairs he saw that the fire was in the upper part of the building. He saw five persons on that floor who he is convinced perished. He heard persons falling all around him suffocated by the dense smoke.

Allice Wilson, aged 18, is known to have perished. Her sister Maud was in the building. The building, a six-story structure, was totally destroyed. The loss on furniture and contents is estimated at \$100,000.

Later—it is now known that 150 lodgers were in the upper part of the building. It is not yet known how many lives were lost, but the first estimate is about correct.

The fire started in the cellar and had gained considerable headway before discovered, as nearly all in the building were asleep.

The German ship, Kise, from Savannah, which was on her way to the shore at Masatlavilla, Holland, is said to have been at high water and is reported to have been wrecked. The ship was washed up along the shore. As much of it as possible is being saved.

S. S. Conly, who has just returned from the wreck, said that he saw a steel tramway around the Canon and White Horse rapids. He is building a new tramway. The time the river opens he says he will be able to handle 500 tons daily, taking boats and all.
